Subject: Microsoft Settlement

Having read through the "Microsoft Settlement" I think that this proposal is a BAD idea , in my job I have the Displeasure of Working on a Windoze Machine running proprietary software. The proprietary software works great and is well written nd intuitive, upon switching back to the Microsoft partition it invariably hangs and / or Freezes. Where I work they have been Dealing with this problem for 10 years. I feel it is only fair to tell you I Am an Ardent APPLE user and from the perspective of standing on the outside looking on as Microshaft slips it to the working public in a most unsatiabale condition . Allowing the "Microsoft Settlement" to be implemented would be GRAVE ERROR in my Humble opinion.
